

Iryna Murselovic

PHOTOGRAPHY

Dear couple,

congratulations to your engagement and thank you very much for reaching out to me!

Please note that following services are included in each wedding package:

- Personal meeting and consultation (in Vienna) or via video conference
- Approximately 50 digital images per hour of work (in JPG format with high resolution and without watermarks)
- Password-protected online gallery for sharing with friends and family
- Professional post-processing of all images, white balance and color correction, retouching of large portraits.
- Travel costs are included in Vienna and surroundings (50 km from the photographer's address). If your wedding location is far from Vienna, then transport costs of 0.60 cents per km must be taken into account.
- Minimal amount of working hours at the wedding is 6 hours.

You are free to select any product or service from the "a la carte" list but I recommend to consider wedding packages because these are already discounted. The amount you are saving by booking a package instead of separate services is visible in brackets.

You will receive digital files via an online gallery that allows you to immediately access your photos, download them or share with friends and family.

All wedding packages include a photo book of your choice. There are 5 beautiful designs and you will definitely find the best wedding photo book for you!

Here you can download the [12-month wedding preparation checklist](#)

If you have any questions at any point of time do not hesitate to contact me via iryna@murselovic.com or WhatsApp per +436765724812.

PHOTO BOOKS

(Vintage, Touch, Soft, Acrylic, Wood)

Sizes	Photo Book with 20 spreads (40 pages)	Add. Spread
20x20cm	350€	6€
25x25cm	400€	8€
30x30cm	450€	10€

PARENT ALBUMS

Size	Parent album price	Main album
20x20cm	80€	25x25
25x25cm	100€	25x25 or 30x30

Parent albums can only be ordered together with the main album and must be smaller than the main album. These always have simple covers without a design. The cover material selected for the main album will also be used for the parent albums. Main album and parent albums are produced with the same files, which are reduced proportionally.
